Priority areas

The 'Safe and healthy work in the digital age' campaign is organized into several priority areas, which are presented using digital communication and interactive tools throughout the campaign. Each area covers a specific topic related to the impact of new digital technologies on work and workplaces. A range of material, including reports, infographics, webinars and case studies, are released every three to four months to sustain the campaign momentum.

In the spotlight

- Digital platform work**
Starts: June 2024
Offers opportunities to workers if the challenges are addressed by promoting algorithmic transparency, correct classification of workers and workers' consultation.
- Automation of tasks**
Starts: June 2025
- Remote and hybrid work**
Starts: October 2024
- Worker management through AI**
Starts: February 2025
- Smart digital systems**
Starts: June 2025
